

# OT SECURITY MANAGER

Darba vieta : Rīga, Latvia

Nodarbinātības veids :

:  
:

Darbības joma : IT & Software

SSI SCHAEFER is a leading global provider of intralogistics solutions. As a familyowned company, we value the knowledge, passion, and talent of our employees. With around 8,800 people across 80 locations and 7 production sites, we deliver innovative, efficient, and sustainable warehouse automation solutions to customers worldwide.

This is your opportunity to join our newly established IT Hub in Riga, where we are building a modern, futurefocused competence center that will play a key role in our global IT landscape.

MONTHLY SALARY: 3700 - 4200 EUR gross, higher compensation possible based on experience and competence, plus performancebased incentives related to goals and KPIs.

As an OT Security Manager, you will drive the evolution of our OT security strategy and frameworks, strengthening the security of SSI SCHAEFER's products and solutions to meet regulatory and customer expectations.

Be among the first IT Hub Riga specialists and contribute to global projects!

## TEV UZTICĒSIM

Develop and continuously improve the OT security strategy, policies, and guidelines (based on IEC 62443). Drive OT security governance and coordinate security compliance activities across business units. Coordinate and support OT security risk assessments and contribute to the architecture principles. Ensure strong alignment with overall Information Security governance. Coordinate the OT security controls across product and solution areas throughout the lifecycle. Support teams in understanding OT security requirements and applying securebydesign principles for Industrial Automation and Control Systems (IACS).

## MĒS SAGAIĀM

A background in electrical engineering, automation, technical computer science, or similar – or comparable training with 3+ years of security experience. Strong hands on experience with securing IACS and networks. Good knowledge of relevant OT/IT security standards, frameworks, and EU regulatory requirements (e.g. IEC 62443, CSMS, ISO 27001, NIS2, CRA). Experience with OT/IT security architectures and industrial protocols such as PROFINET, PROFIBUS, or OPCUA. Practical experience in risk management, audits, and working with international teams. Ability to explain complex technical topics clearly and work collaboratively. Strong communication skills, a proactive mindset. Fluent English skills, both spoken and written to cooperate with colleagues globally.

## TU IEGŪSI

Health insurance and sports cost remuneration after probationary period

Personal accident insurance and corporate travel insurance from the first day

A fully paid day off on your Birthday

Flexible working hours and hybrid work model

Training and development opportunities

A friendly, supportive, professional team in an attractive international working environment

Regular corporate events and team building activities

## TAVS PIETEIKUMS

At SSI Schaefer, our values are Trust, Professionalism, Respect, Collegiality, Result Orientation, Reliability, and Modesty - all united by Passion. If these values resonate with you, apply and let's connect!

The processing of personal data is carried out in accordance with the applicable legal requirements and based on our "Privacy Policy for Applicants", which you can review on our website: [Privacy Policy for Applicants](#)
