SSI SCHÄFER

MORE IQ FOR YOUR INTRALOGISTICS

Comprehensive user knowledge for higher investment security, extensive consulting and more efficiency.

Intralogistics processes are becoming ever more complex. In manual, automated and fully automated warehouses, countless processes need to be monitored, visualized and optimized. This requires expertise. As the world's leading provider of logistics systems, SSI SCHAEFER not only offers everything for your warehousing but also provides the concentrated IT expertise that only the industry leader can provide.

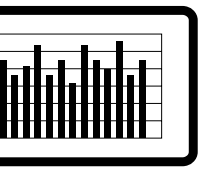

With more than 1,000 highly trained IT experts, we create an individual IT solution that - based on our WAMAS standard solution - precisely suits your intralogistic needs,

regardless of the size of your warehouse. If necessary, we also provide you with support as certified SAP Silver partner. In doing so, we understand the processes involved in your industry and provide excellent implementation, optimization and training services.

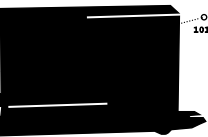

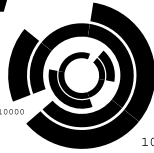

With us as your IT powerhouse you will meet all your challenges. We make your intralogistics easier, faster, more efficient - and your employees smarter.

"Technological excellence and global market presence make us the most attractive partner by your side when it comes to intralogistics."

Franz Bauer-Kieslinger,
CEO SSI SCHAEFER IT Solutions GmbH

YOUR ADVANTAGES AT A GLANCE

- A modular system for everything
- In-house WAMAS® standard software
- Certified expertise as a SAP Silver Partner
- Innovative KPI analysis for optimized processes
- Dashboards for real-time data visualization
- Consulting, implementation, support and training
- Global service network with more than 70 locations
- 24/7 support and flexible service contracts

MODULAR, FLEXIBLE, TRANSPARENT: YOUR COMPLETE SOFTWARE SOLUTION FOR WAREHOUSING

WAMAS® and SAP provide the modules for more flexibility and sustainable efficiency throughout your business.

Our in-house, standardized logistics software WAMAS® combines all your intralogistics components into one intelligent system. WAMAS® is a modular solution which seamlessly integrates into existing SSI SCHAEFER intralogistics and into other intralogistics landscapes. It is also customizable using a wide range of options for controlling manual and automated logistics centers and comes with open interfaces for a smooth communication with your company-specific ERP system. From incoming goods through storage and picking to delivery, WAMAS® is the strong link in your logistics chain.

Certified SAP expertise

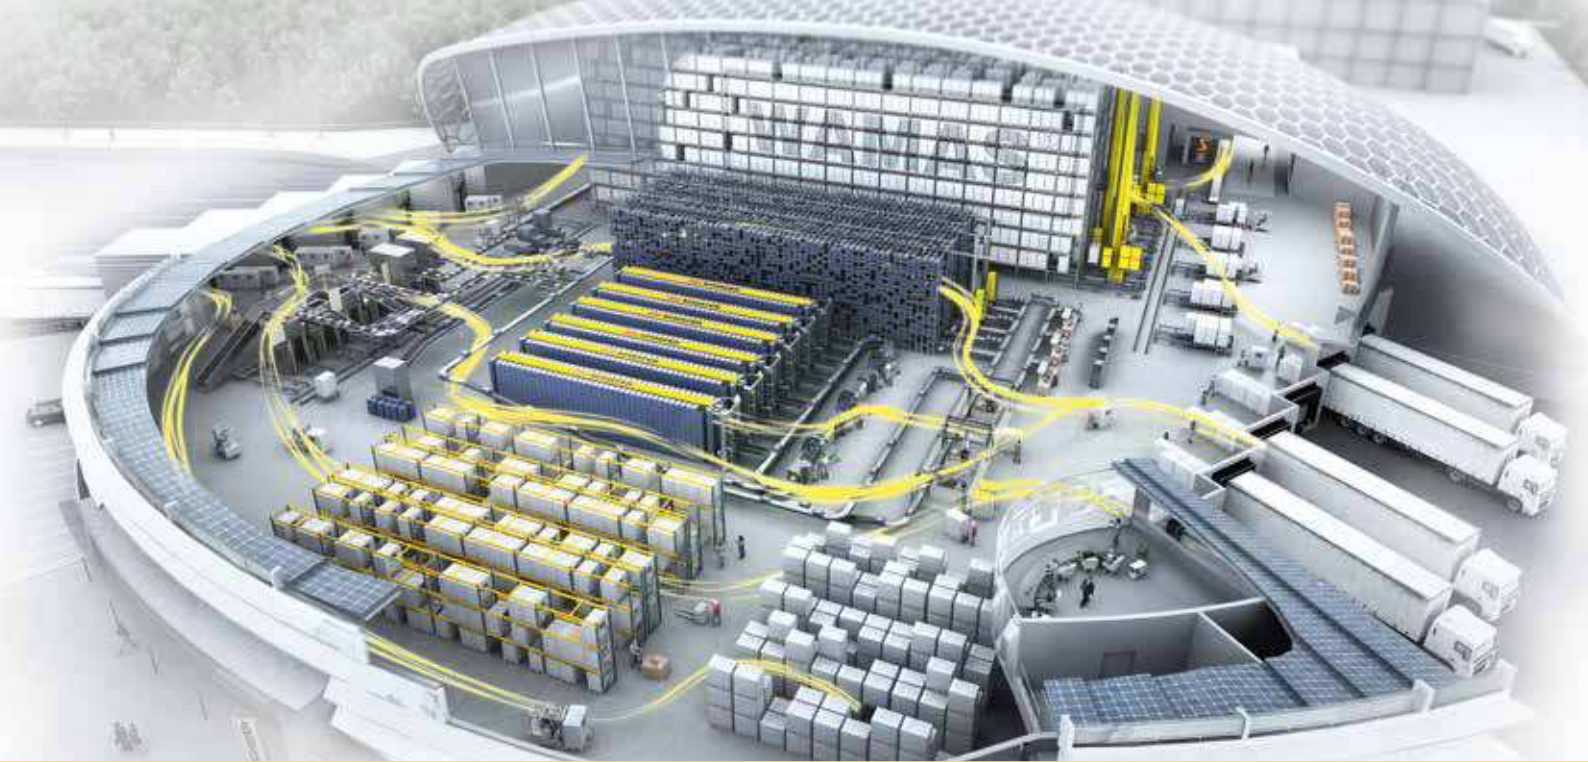

As a certified SAP Silver partner we also help you to select, implement and operate SAP Extended Warehouse Management (EWM). You benefit from an experienced implementation partner with extensive IT expertise and from a proven solution that provides maximum functionality along with comprehensive process support throughout your warehouse.

State-of-the-art software technology and top performance that grows with your business make you fit to meet the intralogistics challenges of tomorrow.

Complete clarity for your decision-making processes

With WAMAS® Lighthouse, you can see, measure and evaluate the heartbeat of your system in order to derive safe decisions. The central information platform visualizes your entire system including material flow, analyses performance indicators and provides you with an extensive range of monitoring and control options. Equipped with dashboards that can be adapted to the needs of different user groups, it combines the technical and logistical overview with operational data and works independently even with already existing systems.

THE RIGHT SOLUTION FOR EVERY INDUSTRY

To ensure that we have the right answers to future challenges of your market, we focused our specific know-how upon six sectors.

Food Retail:

Automated storage solutions for customers who store and ship foodstuffs to wholesalers and shops as well as sell through e-commerce channels. Customer warehousing usually comprises different cold zones.

Healthcare & Cosmetics:

Storage solutions for the pharmaceutical and cosmetics sector. For efficient and problem-free delivery to pharmacies, cosmetics stores and e-commerce customers in particular.

Food & Beverage:

Storage and picking solutions for beverages, food / confectionery, frozen food and dairy products.

Fashion:

All customers who deal in or produce fashion items. The goods can be shipped or stored hanging or flat.

Retail & Wholesale:

Solutions for companies whose business is the temporary storage and the resale of products that are generally non-food to retailers or consumers. Depending on the market sub-sector, SSI SCHAEFER's entire product range can be used.

Industry:

Automated storage and transport solutions for manufacturing. Here target customers are manufacturers in the machine, plant, automotive and electrical engineering sectors. Our solutions range from manufacturing facility warehouse logistics to spare parts logistics and the use of robotics and driverless transport systems.

OUR MOST IMPORTANT INTERFACE IS THE ONE TO YOU

Around the world, we are right where you need us - 24/7 at over 70 locations.

As your reliable partner, we speak your language and support you throughout the lifetime of your facility, personally and as equals. We offer a comprehensive service portfolio that stretches from support for mechatronics to software solutions

and preventive maintenance for all your on-site logistics. Our goals are maximum system availability, short reaction times and long-term support for your company's growth. You can count on that.

Flexible service contracts including 24/7 support

Guaranteed response times

Expert on-site support

EXCELLENCE ACROSS THE BOARD

Just some of the 1,200 successful projects for which SSI SCHAEFER's intelligent IT solutions provide the mainstay to networked Intralogistics systems.

SIX REASONS FOR CHOOSING SSI SCHAEFER:

- **Security:**

As a financially independent family business we are committed to long-term solutions - you can rely on us being there for you tomorrow and in the years to come.

- **Efficiency:**

Our solutions are scalable and grow with your needs. Investing in a solution by SSI Schaefer, means investing in the future.

- **Quality:**

As a specialist for automation systems, we provide single source solutions of our own production. This guarantees that you will receive perfectly matching high-quality solutions.

- **Reliability:**

Our worldwide Customer Service & Support ensure your facilities always work smoothly.

- **Know-how:**

Our solutions are always up to date with the latest technological standard and can be smoothly integrated into the existing (IT) landscape.

- **Internationality:**

As a globally acting company we are locally available to our customers all over the world and speak their language.
