FRONT LOADING SYSTEM

F 1,75 – 8,0 m³

Benefits

- Economic and efficient disposal by one man crew
- Long life span - body made of galvanised steel, lid of plastic, all side walls with vertical beading
- Excellent strength and safety in use due to robust workmanship, maintenance and distortion free
- Cost minimisation with forward looking technology
- Ideal for use in both the private and public sector
- Pockets on both sides of the container for the forks of the lifting gear, solidly welded
- Very small stock requirement of the plastic lids F 1.75 - F 8.0 due to easy exchangeability
- User-friendly and safe due to the low loading height and the light lid operation
- Additional body strength due to box section around the top of the container

Front loading system F 5.0 m³
