

WAMAS® GO! WAREHOUSE MANAGEMENT SYSTEM

The Solution for Small and Medium-Sized Enterprises

ssi-schaefer.com

 **WAMAS®**

 **SSI SCHAEFER**

YOUR BENEFITS

FULL CONTROL

With WAMAS GO!, your current stock and delivery orders are always under control. System-based storage and retrieval processes and permanent inventory ensure constant stock reliability. Automated allocation and control of picking ensure timely outbound deliveries and higher quality. The WAMAS GO! control center allows you to have an overview of the progress at all times and lets you intervene, if necessary.

EFFICIENT WAREHOUSE

With WAMAS GO!, you will improve your warehouse utilization and optimize all transport routes in the warehouse. The system supports your employees in their daily work. Overall, a significant increase of efficiency is achieved. WAMAS GO! is therefore the perfect way to reduce costs.

SIMPLE OPERATION

WAMAS GO! includes all significant warehouse processes and is configured to meet your personal requirements allowing for short introduction phases. By intuitive operation new employees can be trained quickly. And if necessary, you can change the organization of your warehouse in WAMAS GO! yourself at a later stage.

STRONG PARTNERSHIP

SSI SCHAEFER as your partner. Having us by your side, you can concentrate on your business. We will take care of planning and implementing the ideal warehouse solution as well as carry out trainings of your employees. Our work is characterized by our unfailing reliability and financial security, two strong pillars for a life-long partnership.

PROFESSIONAL WAREHOUSE MANAGEMENT WITH WAMAS® GO!

INCOMING GOODS

STORAGE

PICKING

OUTGOING GOODS

Not entirely up to date regarding your stock? Looking for optimization potential in your warehouse? Do you consider taking inventory a burden? If so, you have come to the right place! While you concentrate on your business, we will take care of the optimization of your warehouse for you!

WAMAS GO! is an expandable warehouse management system that supports customers in their storage and retrieval processes as well as in order picking, thereby optimizing the flow of goods.

WAMAS GO! takes care of planning and controlling all flows of goods, which helps your employees to keep stock under control. Your employees benefit from an automated route optimization offered by our warehouse management system. This avoids unnecessary routes in the warehouse. The advantage for you is obvious.

At the push of a button, you have a full overview of your logistics in real time. Regardless of whether you want to know where your goods are or how many deliveries were performed during the day. In addition to instant control over your flow of goods, WAMAS GO! also helps you to minimize errors and optimize stock management. Most importantly, you can be sure that your outbound deliveries will be completely ready at the outgoing goods area on time.

A special advantage of the WAMAS GO! warehouse management software is its modular expandability. At any time, customers can expand their basic package individually by adding extra functions.

This means that the software can grow in accordance with customer requirements. It can be combined ideally with SSI Schaefer warehouse technology such as mobile racks and the LogiMat vertical lift.

WAMAS®

Full transparency in the warehouse

PLAN

CONTROL

AN OVERVIEW OF THE WAREHOUSING PROCESSES

With WAMAS GO!, you fully control your warehouse at all times and have an overview of all items, regardless of whether you want to know where your goods are stored, or in which process stage they are.

INCOMING GOODS

- Acceptance of goods
- Master data verification
- Quality control
- Labeling of loading units

With WAMAS GO!, efficiency and quality start during incoming goods. The controlled incoming goods process forms the basis for the high-quality handling of goods in the warehouse and during outbound delivery.

STORAGE

- Stock management that is 100% transparent
- Storage location optimization
- System-controlled transport orders
- Route optimization
- Stacker control system

With WAMAS GO!, you benefit from ideal warehouse utilization, a full overview of your stock and system-based inventory. The system also optimizes transport orders for storage and retrieval, which saves time by reducing routes.

PICKING

- System-based allocation of delivery orders
- Paperless picking
- Support of mobile terminals and voice
- Automated replenishment control

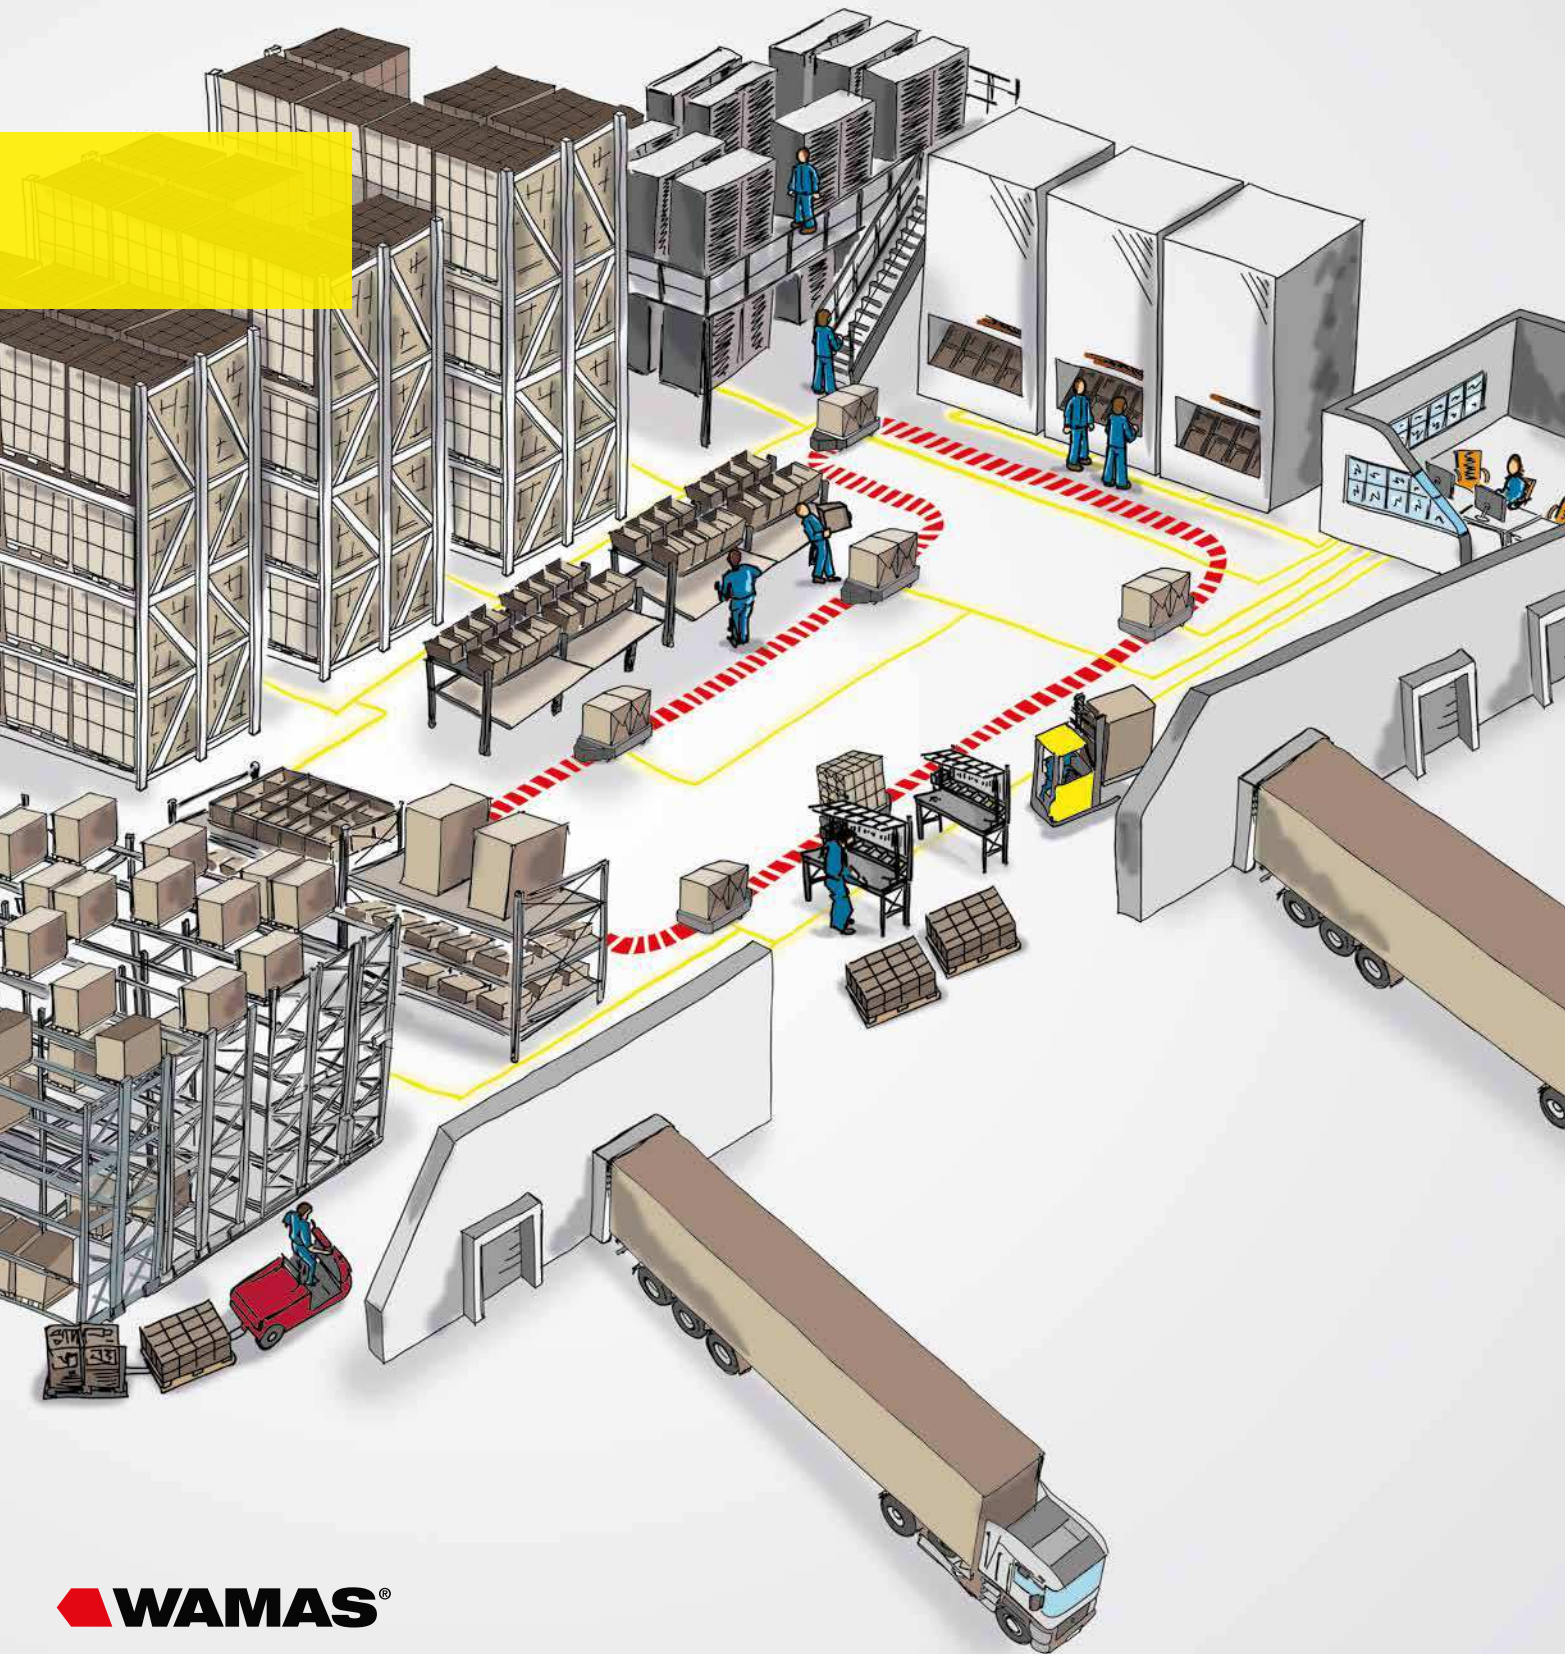

Picking is the greatest challenge in the warehouse. With WAMAS GO!, you avoid errors in the picking process and ensure the timely provision of delivery orders at outgoing goods. At the same time, you improve your warehouse performance, have an overview of all open delivery orders and are able to intervene in the processes at all times, if needed.

OUTGOING GOODS

- Shipment planning
- Quality control
- Staging
- System-controlled loading

A controlled and orderly outgoing goods process is feasible. With WAMAS GO!, you can arrange your outgoing goods strategically, thus making the best use of your staging area. The system provides the deliveries ready for dispatch in the outgoing goods area.

PERFECT INTEGRATION OF OUR WAREHOUSE TECHNOLOGY

WAMAS GO! can be ideally combined with the warehouse technology of SSI Schaefer. Our automated warehouse solutions, LogiMat vertical lift and pallet mobile racks, can be integrated into and controlled by WAMAS GO!. This way, we offer the perfect warehouse solution for every requirement.

QUOTES

” Thanks to the new solution, we are finally able to access every individual load carrier straight away. Now we always know where an item is during the picking process. Moreover, the current stock is always available. “

Mirko Herzog,
Authorized Representative and Finance Manager,
Controlling, IT & Supply Chain at GKN Walterscheid Getriebe GmbH

LEONHARD HEYDEN
GERMANY SINCE 1891

” Because WAMAS GO! completely controls everything, we now spend around 30% less time on our processes. Furthermore, the system guarantees 100% stock transparency and traceability. Also the error rate has decreased significantly. “

Christian Usinger,
Head of Logistics at
Leonhard Heyden GmbH
